

TECHNICAL DATA SHEET

SECUPLUS RIPPEX 220
NO. 220001

Safety technology

Bladeless

The tool does its work without a blade. There is no cutting edge on which you can injure yourself. This special protection eliminates the possibility of cutting accidents.

BLADELESS TOOL FOR TEARING OFF PAPER.

Order No. 220001.13

Paper splitting without a blade – even in multiple layers.

The SECUPLUS RIPPEX 220 is ideal for processing roll material. Thanks to the stable edge on the top, it is able to split single or multiple layers of paper from the roll. Since there is no blade, cutting injuries are impossible. And material shrinkage is also kept within limits. Because the ergonomic SECUPLUS RIPPEX 220 can not only be inserted precisely into the selected layer. It also glides over the surface without leaving any marks.

Bladeless

The SECUPLUS RIPPEX 210 made of plastic works without a blade. There is no sharp cutting edge on which you could injure yourself. This special protection considerably increases your safety at work.

Bevelled edge

The edge on the top is shaped exactly so that you can use it to rip paper layers. Condition: The paper is under tension. The straight knife nose paves the way into the roll.

Smooth contact surface

The underside of the SECUPLUS RIPPEX 220 is completely smooth and straight. So you don't lose speed in the roll. You can glide through comfortably – while the splitting work is done further up.

Ergonomic handle

You move the paper splitter forward by pushing. It is very pleasant that the rear part of the tool is rounded. This avoids pressure points and other discomfort.

Recess and opening

De papiersplitser beweegt u in een schuivende beweging naar voren. Daarbij is het zeer aangenaam dat het achterste deel van het gereedschap afgerond is. Dat voorkomt drukpunten en andere klachten.

PRODUCT FEATURES

Technical features

Spezial safety

Bladeless

SAFETY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. Usage advice: Please use the product carefully for described work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the cutting tool into account in this regard.

2. Special application Instructions to avoid the danger of injuries: Only use cutting tools that are in perfect condition and have sharp, clean and undamaged blades. Employ the utmost care when handling the knives. **CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade!** To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that

the knife slips. Do not modify this product in any way. Modifications of any kind may impair product safety. **CAUTION:** The risk of injury caused by manipulation of this product is extremely high. When both cutting edges are no longer sharp, dispose of the knife as general waste.

3. Non-use of the knife: Store the knife in a secure place.

4. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!
